

The Metre Shed

The winning choice for your Six Metre in 2007

Based within Universal Marina, The Metre Shed (TMS) can boast to have the largest collection of managed metre yachts in the country and provides the facilities and expertise to fuel your project whatever the level.

Background to TMS

TMS was set up by marina owner and director of The Willment Group Avia Willment, to enable other owners to have their pride and joys maintained to the highest possible standard, allowing more time for sailing and enjoying these magnificent yachts. Avia owns Siris, a classic 1925 Morgan Giles-designed 8 metre, and Tempest a modern 1987 S&S designed 6 metre .

Set up in 2005 TMS has grown quickly attracting a variety of metre boats both classic and modern including Six, Eight and Twelve metre yachts, providing specific services individually tailored to the owners needs.

“2007 is going to be a great year for TMS. We are actively supporting all our clients in the various regattas held in the Solent next season”, says Neil ‘Jaffa’ Harrison TMS Manager and race specialist. , Jaffa goes on to explain “ We have assisted two boats arriving from Sweden to have works completed over the winter ready for 2007.” “We will be on hand to help with launching, mast stepping, rig tuning, repairs and servicing to ensure your boat is in top condition prior to the regatta as well as offering advice on the logistic and planning of your campaign”. Avia adds “We would like to invite all the six metres to use TMS in 2007; be it for the Worlds, the season or on a permanent basis, it would be great to have you here and join the growing family of Metre Boats at the Marina”.

Universal Marina

It is probably the best-kept secret on the River. The most peaceful and tranquil of environments in juxtaposition with the serious businesses that hide within its green surroundings. Nestling between the oak trees on the east bank of the river Hamble approximately a mile and a half from the mouth of the river where the Hamble joins Southampton water and the Solent lies a 68 acres site. Most of land is set aside for nature, 10 acres of which hosts a traditional boat yard that has undergone significant changes over the past 10 years.
